

Math x-Change

Was something not quite clear in math class today?
Did you have trouble with your math homework last night?
Remember that math test that didn't go as well as you thought it would?

If you answered YES to any of these questions, then WE CAN HELP!

Math x-Change is a free tutoring service available to all LSA students every day at recess and lunch.

Our team consists of dedicated math teachers and highly skilled student tutors, united by our shared passion for math and our drive to make a positive contribution to the LSA community.

Students simply bring their questions to **Math x-Change** in room B-308 any time during recess or lunch, and when their questions have been answered, they go on their way a little wiser than before!

Hoping to be a part of your success this year,

The Math x-Change Team
